DESCRIPTION

Custom Indoor Waterfall Project for DPR Construction. There are 2 free-floating, stainless steel mesh water features on location in Austin, TX. Both are in a horizontal multi-panel frame style with brushed stainless steel frame finishes. Waterfall #1 (images 1-5) is a custom, 3-sided shape. Waterfall #2 (images 6 & 7) is a custom, rectangular shape.

The preassembled system and preprogrammed sequencing for each custom indoor waterfall was tested at our facility, prior to installation. The system for both includes stainless steel catch basins with mesh attachment points and integrated fittings.

Location: Austin, TX

Custom Indoor Waterfall #1: 23.5' T x 22.5' W

Custom Indoor Waterfall #2: 24.5' T x 19.5' W
