

#723 Ames Water Treatment Plant - Water Feature

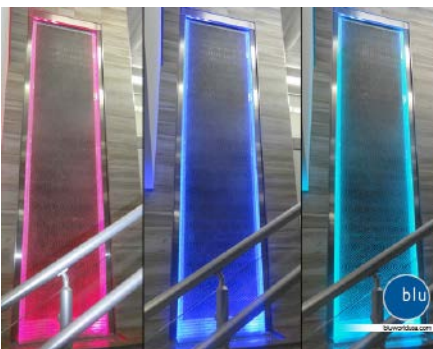

PRODUCT DETAILS

- Built-in
- Underwater lighting
- Brushed Stainless Steel
- Price range: \$61,000-\$100,000
- Color Changing Lighting
- Corporate venue

DESCRIPTION

This built-in water feature was installed for our client's grand opening in Ames, IA. The tile used for the water panel adds more depth and dimension to the eye. LED lighting was installed on the sides and bottom for a pop of color against the muted, neutral tones. Any water feature can enliven and customize your design space. If there is a water feature in your architectural vision, our professional and skilled staff will make it happen!

Location: Ames, IA

Dimensions: 20' T x 5' W
