PRODUCT DETAILS

- Horizontal Multi Panel
- Waterwall
- Clear Glass
- Brushed Stainless Steel
- Price range: \$61,000-\$100,000
- Under-water lighting

DESCRIPTION

This multi-panel glass waterfall acts as a stylish partition on the open-air patio at the luxurious, Ritz-Carlton resort. The brushed stainless steel frames the clear glass in an unconventional, L-shaped orientation. We teamed up with talented staff at The Johnson Studio and Phoenix Construction to fully realize this glass waterfall concept. The client also specified a semi-custom waterwall on their property (imgs 5 & 6). The waterwall is nearly 10'T x 6'W and echoes the multi-panel glass waterfall, by featuring the same materials. Our semi-custom Waterwall products are beautiful design options when budget is of concern. Select from a series of standard sizes, rich frame finishes and water panel materials to fully customize your waterwall vision.

Dimensions: 7' T x 19' W

Location: Grand Cayman, Cayman Islands
