

729 La Tour Condominium - Custom Water Feature

PRODUCT DETAILS

- Standard Single Panel
- Encapsulated/BluGuard
- Bubble Feature
- Residential Venue
- Brushed Stainless Steel
- Color Changing Lighting
- Price range: \$61,000 - \$100,000

DESCRIPTION

This custom water feature has qty 4- Blu-Guard™ Standard single panels with a curved style option. Each set of panels are fully sealed, with water running down the inside surfaces. Brushed stainless steel flashings frame the sides, and LED RGB strip lighting illuminates the custom water feature. The interior columns are decorative pieces of the existing design. They are static and made of solid material, although they look like animated bubble columns - such a cool effect! Our custom water feature installation resulted in a gorgeous finished product.

Dimensions: (QTY: 4) 11' T x 3' W
Location: Miami Beach, FL
