

#739 Southlake YMCA - Bubble Wall

PRODUCT DETAILS

- Bubble Wall/BluGuard
- Encapsulated
- Corporate/Fitness
- Material: Clear Acrylic
- Material - Brushed Stainless Steel
- Color-changing lighting

DESCRIPTION

In collaboration with SJCF architects, we designed this bubble wall for a fitness facility. The staircase winds around the bubble wall creating a visual interest and focal point as you ascend to the second floor. The bubble wall was constructed out of brushed stainless steel and clear acrylic, featuring LED color-changing top and bottom lighting. It is fully encapsulated with a Blu-Guard system, making it virtually maintenance free and in line with all recommendations for infection control.

Dimensions: 144" T x 72" W

Location: Crown Point, IN
